Guitarists Rose Berry and Toos Reid lead the congregation in a hymn of praise during the World Day of Prayer service held at Hyland Crest Senior Citizen's Home on Friday. Sixty members of the Anglican, United and Roman Catholic churches of Minden, took part in the service. The Women's Inter-Church Council of Canada which organized services in parishes across the country, joined one hundred other national committees world wide in celebrating the theme, "Choose Life in its Fullness."

Property owners reject validity of lake study

A citizen's group, formed in opposition to a proposed trailer park on Hall's Lake, has rejected a provincial government water quality study as failing to fully address the impact the trailer park will have on the lake.

The Concerned Citizens of Halls Lake (CCHL) was formed in the summer of 1985 in opposition to a one hundred site trailer park proposed by Dr. Thomas Offen. In response to the concerns expressed by the group that the development would have a serious impact on the water quality of Hall's Lake, Stanhope

council passed an interim control bylaw placing a freeze on the development for a period of one year or until the results of a water quality study are made public. Council also restricted the park to 65 trailer sites under the comprehensive zoning bylaw.

The Ministry of Environment carried out a study in 1983 on the over all water quality of the lake, the available lake trout habitat and the sensitivity of the lake to additional nutrient loading.

The study which was tabled at the February meeting of Stanhope council did not predict the effect of the trailer park on the lake because of the lack of information on the development but did predict the development of existing vacant lots on the lake would have a minimal impact on water quality.

In a letter to council, read at the regular meeting on Wednesday, March 5, the lawyer representing the citizens group, Carol Albert, said a more detailed study is needed to assess the impact of the trailer park.

The lawyer went on to say the group agrees with a suggestion made by the Minister of the Environment Jim Bradley that a study team consisting of representatives of all concerned parties be formed. "To establish the parameters of the study to be undertaken."

Bradley had suggested a team could be formed to manage an independent consultant who would carry out the study. The lawyer also agreed with Bradley's suggestion that the cost of the study be borne by the developer.

While council had little comment on the stand taken by the CCHL, it was generally agreed it is now the responsibility of the group to initiate any further action.

Council members went along with Reeve Harry Davis' comment, "The ball is now in their court."

Council ponders improvement options

Repairs to Minden arena, the construction of sidewalks and the installation of streetlights are among the projects being considered by Anson, Hindon and Minden council for approval under the Ontario Neighbourhood

Improvement program.

The Ministry of Municipal Affairs, which sponsors the program, has approved a grant of \$80,000 to the municipality. In order to receive the funding, the municipality must submit a list of projects to the ministry for approval.

Council announced a list of possible projects at a public meeting held in the municipal council chambers on Wednesday, March 5. Deputy-Reeve Bern Berry said he was disappointed in the turnout at that portion of the meeting dealing with improvements to residential

areas, since council was seeking input from the public.

Only four people including two municipal employees, were in attendance along with members of council and the municipal planner Bob Lehman. The planner said the municipality must match the grant provided by the Ministry and that under the terms of the program, the total possible expenditure of \$160,000 must be spent evenly over a period of three years, ending in March 1989.

The program will initially apply to the village of Minden, the planner said, but noted Ingoldsby and Carnarvon may be considered for future projects. The projects which are considered to be of first priority, include the construction of sidewalks along the west side of Bobcaygeon Road between Sunnyside Bridge and Prentice Street, the installation of street lights on Parkside Crescent, decorative lighting on Sunnyside Bridge and further sidewalk construction on sections of Parkside Crescent and Prentice Street.

Since 20% or \$32,000 of the total funds must be spent on recreational facilities,

council is also considering carrying out repairs to the arena roof, the installation of public washrooms at the baseball diamond and the paving of a portion of the upper parking lot at the community centre.

Since there is the possibility of further funding, council is also considering additional projects for inclusion in the application. The reconstruction of storm sewers along Bobcaygeon Road between the bridge and Prentice Street was one suggestion made at the meeting as well as the possibility of purchasing a new Zamboni ice resurfacing machine for the arena. Other suggestions include the construction of sidewalks and improved ditching along Anson Street, the installation of street lights along the pathway between the arena and Stouffville, constructing a sidewalk between Bobcaygeon Road and Hyland Crest Senior Citizens Home and the establishment of a numbering system on residences and commercial buildings.

Council is expected to give final consideration to the proposed projects at a special meeting this week prior to submission of the application to the ministry.

Stanhope provides partial support for Minden arena

Stanhope Council has turned down a request for a donation to Minden Arena building fund or capital improvement project, but has agreed to continue support to the Minden Figure Skating Club and the Minden Minor Hockey Association.

Council's decision was made in response to a request by Anson, Hindon and Minden Recreation Committee contained in a letter tabled at the regular meeting on March 5. The letter from the secretary of the committee noted that during the past five years, there have been substantial increases in the operating and maintenance costs of the arena, while, at the same

time, the municipal grant has remained constant. The letter points out the 1985 debenture payment alone was \$16,004 while the grant remained at \$40,000.

It is the intention of the committee to hold the municipal grant to this figure. "With sound budgeting and with the assistance of our municipal neighbours," the letter continued.

Describing the arena as an integral part of the community of Stanhope Township, the recreation committee expressed the hope that council would financially support the facility.

The letter also requested a donation from Stanhope

Township at a rate of \$25 per resident who enrolls in the Minden Minor Hockey Association or the Minden Figure Skating Club.

In 1985-86, a total of seven children from Stanhope Township participated in either figure skating or minor hockey in Minden.

While council was generally favourable to the request for the \$25 donations, they rejected the idea of a contribution to the building fund. Councillor Jim Harrison said the council must consider budget restraints and the ratepayers of Stanhope. He did suggest a donation on a

Minden Monarch goalie, Vince Duchene, drops to his knees to block a low shot by right winger Brad Heyman of the Godfrey Juveniles during the fourth game of the Ontario semi-finals at Minden arena on Sunday. Godfrey scored a 6-3 win to take a one game lead in the series. For story and additional photo, please turn to page ten.

Council endorses zoning bylaw

After generating considerable controversy during the latter part of the past council's term, the comprehensive zoning by-law was quietly passed at a meeting of council on February 25.

The by-law which regulates lands and structures within the townships was first made public in August 1985.

The by-law came under

heavy attack at an open house held in October and while most of the objections were resolved by council, further concerns were raised at a meeting held in November.

After conducting an extensive review of the by-law with the assistance of the municipal planner, the present council agreed with the final draft of the document and is prepared to

submit it to the Ontario Municipal Board for approval.

Councillor Verne Graham declared a conflict of interest when the resolution approving the by-law was presented to council last Tuesday. Graham said he was taking the action because of his conflicts with the previous council.

Graham was one of the most vocal opponents of the

zoning by-law during the public meetings in the fall, arguing over the method council chose to introduce the by-law to the community and criticising council members for hiding facts from the public.

Residents of the municipality who have objections to the bylaw must register an appeal with the clerk-treasurer on or before April 1.

Martin V.P. named to industry board

Charles (Chuck) R. Lindsay, Vice President Manufacturing, G.W. Martin Lumber Limited, Harcourt, was elected vice chairman of the Canadian Lumbermen's Association (CLA) Hardwood Bureau during the CLA 78th annual convention, Montreal, February 12, 13 and 14 attended by one thousand delegates.

Lindsay has been a participant in hardwood bureau activities for many years. Most recently, he has been involved with the

bureau's promotion committee in the preparation of a new hardwood flooring brochure for use in domestic and overseas markets.

As hardwood bureau vice chairman, Lindsay is also a member of the CLA board of directors.

He began working with G.W. Martin Lumber Limited in 1966 as a supervisor overseeing construction of the present Harcourt sawmill, progressing to mill foreman and then vice president manufacturing and marketing in 1974.

per capita basis be made to the municipality of Dysart et al since some youngsters from the township of Stanhope participate in the municipality's recreational programs.

While councillor Ann Barker went along with council in approving the per capita donation, she noted some families in the township have commented that the costs should be paid entirely by the parents of children who take part in the

programs since many parents cannot afford to enroll their children.

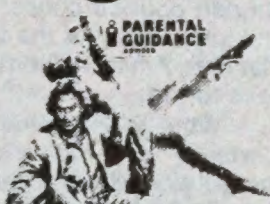

Reeve Harry Davis said he could understand why Minden was facing financial problems with the upkeep of the arena since many communities have built arenas, but did not have sufficient population to support the facility.

Council passed a resolution agreeing to the per capita donation but turned down the request for a contribution to a building fund.

Fairness

With regard to recent comments aired by some members of the Anson, Hindon and Minden council concerning the effectiveness and impartiality of the current chairman of the Planning Advisory Committee, Dean Elliott, we have to ask:

- Why is this issue being aired publicly? Certainly the individual who has had his integrity questioned deserves better treatment than what he has received so far from the council. The elected officials reserve the right to escape into in-camera sessions when discussing municipal personnel matters. Surely citizens serving their community deserve the same respect.

- Where were those individuals three months ago who are so quick to criticize now? The municipal council minutes of December 12, 1985, show no objection or negative votes when the Planning Advisory Committee was appointed. In fact, the minutes show Councillor Verne Graham as seconding the appointment of the seven member committee, including Elliott.

- The Planning Advisory Committee includes two members of council and two senior municipal employees. Surely, with that kind of representation, the chance of an independent citizen member taking advantage of the position could be quickly identified and communicated to the council.

- Finally, as its name implies, the committee is an advisory body, providing the council with the benefit of its cumulative experience, in-depth investigation and opinion unaffected by political considerations. That does not necessarily make their advice correct or right. Council retains the option to reject, alter or ignore the recommendation of the committee and in fact, must endorse the committee's recommendations by formal resolution.

The councillors may be laying the groundwork for the dissolution of the committee. If that is indeed their purpose in following this tack, they should state that fact. To continue to follow the course started in February, can only lead to a further embarrassment for the council and disillusionment of those citizens serving their community in various committee positions.

St. Andrew's Church, West Guilford.

letters letters letters

Editor's note: The following is an open letter to the Anson, Hindon and Minden municipal council from former councillor Pat Burk.

One thing, among many, I learned when on council, was never to make a statement or even ask a question that would point a finger to anyone without first knowing all the facts. Mr. Graham has again done just that, and worse, Mr. Nesbitt has followed it up with another negative statement and without looking into the whys and wherefores.

The previous council, when choosing members for the Planning Advisory Committee, spent many hours examining letters of intent, resumes, applications and conducting interviews. There was a great deal of discussion on the advisability of including a member of the Real Estate Board. We all agreed that a member of this Board could be a very valuable asset.

Planning, a very wide knowledge of land, reading of drawings and survey reports, government priorities, etc., etc., are all facts in decision making by

the Planning Advisory Committee. We drew in as wide a variety of people

from both the business community and the general public.

Among the applications received were several from members of the Real Estate Community. All applicants were interviewed carefully with pointed questions regarding conflict of interest. The added asset that Mr. Elliott is a Justice of the Peace and therefore could have more access to the more obscure laws of the land, would make a good

balance with Dick Schell, our bylaw officer and Bev Millar, our clerk-treasurer, both having excellent knowledge on these subjects.

Mr. Graham, you are attacking Mr. Elliott's integrity and this is inexcusable! Mr. Elliott has been invaluable with his suggestions when drafting the Official Plan; in pointing out items not applicable to our area and never would be; in leaving a door open in case a situation did arise; thus avoiding a possible amendment; in adding points that were missed, but then everyone on the

committee made their contributions as well.

In handling severances, subdivisions and any decisions concerning land division or use, the committee has always considered the potential for the future as well as the present. The committee even went so far on the odd occasion to suggest to an applicant, a different way would be better planning. On many occasions, Mr. Elliott took us out to the site to look at the land in question. Whenever the property even remotely touched on Mr. Elliott's real estate affiliation, he always declared a conflict of interest and withdrew totally from any discussion.

The previous council worked very hard not to make adverse remarks about other people in open council sessions. Leave the smear tactics for Provincial and Federal governments, they do it very well. Such tactics are not for our council! There is too much negativism in our county today. Please let us keep our council positive and let us build relationships on trust.

Pat Burk,
Ingoldsby.

letters

Editor:

Quite conceivably many tributes will be paid to the retired Fire Chief Deac Jackson, hence, we would be rather remiss in not adding our personal tribute to a very solid and contributing factor to the community of Minden at large.

Back in the 50's, we were introduced to Deac (the plumber and "Jack of all Trades") by Cub Coneybeare and from that point on our friendship grew because Deac was "always there" when we needed him!

As individuals (in a new cottage), who did not know the difference between a "Robertson" and a screw driver, Deac calmly assured us there was a difference and without his assurance that our hot water tank had an adjustable valve, we probably would have washed our dishes in lukewarm water.

On occasions when we had our children and our grandchildren visit us, something would go wrong with our sewer system (always on a Sunday). Deac would be 'Johnny on the Spot' despite his Sunday dinner.

We regularly receive Kinsmen club raffle tickets from Deac indicating he is community oriented.

We could go on reminiscing "ad infinitum", but we recognize Deac as one of the stalwarts of the Minden Community.

Ross and Edna Purchase,
Toronto.

Editor:

What's in the minds of Mr. Nesbitt and Mr. Graham, our reeve and councillor? Can it be they are trying to get one of their own into the chairmanship of the Planning Advisory Committee? Is patronage coming to Minden? Did they find Mr. Elliott was not accessible enough to their way of thinking?

Conflict of interest is almost unavoidable in a small community. The men of integrity, the hard workers that keep our town going, are the same men that, through civic responsibility and interest, stand and volunteer for public duty. The same men and women that found and run our small businesses also stand to represent our community. Retirement and self-employment is not a requisite to serve in an office of public concern nor is to be jobless or without attachment required. Most elected officials can claim some personal concern outside of their office without such a slur on their credibility.

Mr. Graham finds he has

Study puts new face on downtown

Minden downtown merchants had an opportunity to examine some preliminary plans for a facelift of the core area of the Community Wednesday evening.

The occasion was a meeting between planner Robert Lehman of Barrie and members of the Minden Business Improvement Association. The BIA and municipality has jointly funded a facade improvement study, which will examine ways to improve the appearance of the community's commercial buildings.

The meeting Wednesday offered the planner and his architect an opportunity to present some of their initial ideas on the project and receive feedback from the merchants. Approximately 20 business owners were in attendance.

Lehman told the gathering that the final study should provide the merchants with information that will be helpful in the renovation of their store fronts. He said he realized that just because a study is being done, merchants will not immediately start changing their premises. However, he noted, if everyone is aware of the study and what it is attempting to achieve, when the time comes for facade renovations, they will be able to proceed with the plan in mind. "It's a long term objective," he told the gathering. "And certainly we have no power to tell you what to do with your businesses or when. We can

An artist's concept of how Minden's Main Street might look with a facelift. The view is from the Gull River bridge.

only offer suggestions."

The study, when complete, will provide general ideas for improvements for all business facades in the BIA. As well, at least four buildings in the area will be given a detailed assessment with the cost of the improvements being offered. Lehman said that by providing the information for four sample buildings in the BIA, other merchants should be able to determine what it would cost to carry out similar improvements to their own building.

The consultant told the meeting this was the first study of its kind in a community of this size to be carried out in Ontario.

Myles Allison, the

architect working with Lehman, then presented a number of drawings detailing improvements that could be made to the core area of the community. He said the effort was directed at creating a unifying effect within the BIA and to take advantage of the natural attractions the community

already enjoys. "We do not want to make Minden something that it isn't," he told the gathering. "We just want to capitalize on what you already have."

The drawings shown to the audience included the planting of trees along the main street, installation of

new light standards, designated cross walks on the main street and increased access to the river from the downtown area. This would include building steps down to the water's edge and a walkway along the riverbank.

Those in attendance

offered a number of suggestions for the final preparation of the study, however, most merchants seemed to be satisfied with the direction the consultant and architect were taking.

A final meeting, at which the finished study will be presented, is expected to be held within four weeks.

letters

(from page 4)

difficulty accepting Mr. Elliott's business position in context to his Planning Chairship, yet, in quite a different matter, declares himself personally partisan to a particular issue. Mr. Graham would like to grant

free rentals to his favourite organization in perpetuity because of their long and beneficial service to the whole of Minden -- to my mind he has aligned himself so strongly on this issue that his vote is known before hand on any of its dealings with council. Is that not conflict of interest in that quarter?

Our councillors are in

council to retain municipal unity and count the public's pennies wisely and efficiently - not to be lobbyists for their own personal interests.

I feel Mr. Nesbitt, with his considerable real estate interests and development interests and Mr. Graham with his varied interests, can still effectively serve in our most trusted and honourable positions. I do not

question Mr. Elliott's ability to serve just as honourably and to bring dignity to his posting. To do so is an insult to each and deserving of the general public's total rejection of such thoughts.

Let's watch The Boys -- they are starting to flex their muscles...but to what end?

Nancy Adamson,
Minden.

Putting a dollar value on protection - by Gary Kenney

How do you measure the cost effectiveness of police work? How do you decide whether to spend the same taxes, more, or less on police? With great difficulty.

Surprisingly, there are no records kept anywhere in this country that compares one force's performance with others'. What is known from Statistics Canada is that regional crime fluctuates from one year to the next with no obviously apparent reason (i.e. more or less policing.)

Some experts have said they believe crime stays pretty well at the same level but the reporting of crime fluctuates. The same persons go on to say that police only hear of about one third or less of all crime, that about one quarter of an officer's time is spent investigating crime, that half his/her time is spent patrolling to prevent crime, and finally, that over three quarters of policing costs are due to salaries and benefits.

It appears those who control our OPP's purse-strings feel less money can be spent patrolling to maintain an adequate level of policing. Or are they forcing the general public to assume a higher proportion of society's cost for personal and property security?

In the USA, twice as much is spent on private security services as on the public law enforcement agencies. I think Mr. Peterson likes that ratio.

School marm and I heat with wood, and we get just as rattled as others who do likewise while flinching at stories

about the perennial rash of winter house fires. Now, Underwriter's Laboratory of Canada has announced complete success with the testing of a product that may ease a little of our concern.

It's called Chimney Guard and can be installed by homeowners so that when flue temperatures reach 360 degrees Celcius, the contents of a fire extinguisher are automatically released into the threatening stove and chimney. The device can also be activated by hand if necessary.

The manufacturer (Chimney Guard Canada Ltd., Joliette, P.Q.) is expected to retail the product at \$225, complete with the fire extinguisher, later this month.

Looks like a product our local store owners should be investigating right away. Call me when you've got some in stock, I'm sold.

Environment Canada reported that equipment, monitoring precipitation at Dorset, recorded the most acidic snowfall in the eastern and maritime provinces again last week. Apparently, this time it may not have been only American pollution falling on us. The source winds that carried our vinegar flavoured snowflakes (pH 3.9, or 17 times more acid than normal) came from southern Ontario.

Finally, I found a letter in the snow at Minden the other day. The address label is all smudged and there's no sender's name on the back. Beat's me what it's about.

Perhaps Mr. Yut has some ideas where we can stick it.

Dear Mr. L.E. Yut,

It's a fact you know. I, uhh...I mean we, have a little difficulty with this possible conflict of interest you've got.

Now there's two ways we can handle it, see. First, me'n'some-o-the-boys figure maybe you should take a hint and quit right off. 'Course that way we can all keep friendly like, and who knows, it's a fact you could be up fer one of them heritage things some day.

It's a fact, though, if you fight us on this, well, me'n'some-o-the-boys'll have to get a little tough. You can kiss your heritage thing goodbye, and it's a fact your usual parking spot by the bridge is on property we control, don't you know. Could be we'll put a meter there on ya, or seed it in hay, or a coupl'a other things some-o-the-boys are working on.

Think it over.

Oh, I also heard you had to read all about this in the paper first. Sorry. You know how busy a guy can get this time of year. You know, if you kinda let your mind wander like a cloud, there are few who cannot find something that could be taken for a conflict...just like them proverbial skeletons...kinda spooky really. Respectfully, etc., etc.

(The signature was too smudged by the slush to be legible.)

Business briefs

Why go south?

Those who look for Haliburton Highlands resorts ads in the Toronto papers, may have noticed that Art Ward at Wig-A-Mog Inn was offering an unusual twist.

Taking a page from the resorts just south of the border that will do almost anything to attract Canadian tourists this time of the year, the copy for the resort on Lake Kashagawigamog offered to accept Canadian dollars at par. Think about it...when was the last time you got a deal like that.

Snip-snip

After serving as a barber shop for close to 30 years, the small building next to Floyd Hall Insurance on Minden's Main Street is empty. Jerry Cooper has moved his hair cutting operation three doors up the street to a new location.

The small shop that he vacated has been somewhat of a landmark and curiosity over the years. It served as a taxi stand prior to Jerry's father moving into the location with his barbering service almost 30 years ago. Jerry took over from his father several years ago.

The move to the new place, part of the building occupied by Miss Nora's Hair Styling, took place several weeks ago. Interestingly, the portion of the building where the barber shop is now located, was originally added on to the adjacent building as a barber shop and was

operated by Jimmy Smith over 30 years ago.

New owners

Ownership of the Lochlin General Store recently changed. Bill and Carol Smith, the owners for the past ten years, sold the enterprise to Bill and Sue Little.

The Littles are residents of the Lochlin area and operate a farm near Ritchie Falls, just five minutes from the store. Bill is a long time resident of the area, being joined here by his wife Sue some ten years ago.

The Lochlin General store is one a number of classic general stores which dot the Highlands landscape. Of particular interest to visitors to the store is an interesting selection of antiques and memorabilia which line the upper shelves. While the products which are sold through the store are similar to those found in many stores today, the special displays of items from years gone by evoke an era when the general store was the central focus of the community it served.

The Littles hope to retain that spirit. During the upcoming summer they plan to offer for sale, fresh produce from their farm.

The store is also carrying livestock and pet food. Sue reported that they plan to expand their selection of hardware and hope to attract additional customers by making bulk food purchases.

The store will continue to serve as the Lochlin Post Office.

German mail finds its way to local post office box

Residents who get their mail through the Minden Post Office are aware that, on occasion, mail intended for Midland, Ontario can end up here. But, it is not very often that mail intended for the "Mother" of all Mindens, Minden,

West Germany, finds its way here by error.

That was the case this past week when Will Wolfram of The Stop convenience store

opened his post office box. Inside he found a brown envelope addressed to Accountant W.E., Services Sound and Vision Corp., Zaehring Allee, Kingsley Keerne, 485 Minden (Westf.) The local post office had routed it to his box, no doubt because of the reference to 'Sound & Vision' as he operates 'Minden Sight and Sound' at The Stop.

Interestingly, the postage

stamps on the envelope were Canadian even though the return address indicated a West German location.

A little more scrutiny revealed the letter had been sent from the Canadian Forces Base at Baden Baden, West Germany, which accounted for the Canadian postage and was intended for an addressee in Minden, Westfalia, West Germany. Somehow the envelope made it into the

Canada-bound mailbag and once on this side of the Atlantic was directed to this post office.

The letter is back in the system and is hopefully winging its way to West Germany and its intended

recipient in Minden, Westfalia...that is if it doesn't get side tracked to Midland, or Minden, Nebraska....or Minden, Iowa, or...

Here comes the CAT

Story and pictures
by Michael Shirley

Through the generosity of thousands of residents of four neighbouring counties, Peterborough Civic Hospital now has one of the most sophisticated diagnostic systems in existence.

Beginning March 10, the CAT (Computer Assisted Tomography) Scanner will be testing patients in a special facility constructed this past winter.

The scanner was purchased by the hospital following an 18 month fund raising drive that resulted in pledges of nearly 2.2 million dollars. In all there were about 29,000 donors from service clubs to corporations to individuals in the counties of Haliburton, Victoria, Peterborough and Hastings.

Corporate donations including employee payroll deductions amounted to \$415,800. A further \$225,000 was collected through organizations such as service clubs, church groups and social groups. \$247,300 has been raised through unsolicited donations comprised mainly of "In Memoriam" donations. Three hundred and eleven organizations and individuals in Haliburton County contributed almost \$32,000 to the overall fund raising effort.

Public Relations Director Jim Coghlan described the CAT scanner suite as "Being like a brand new hospital in the middle of a 35 year old building. Three patient rooms were gutted and rebuilt from the inside out." A new concrete floor was installed in the centre of the three rooms which make up the suite to ensure the scanner is mounted on a

perfectly level surface.

A small computer controls the heating and air conditioning system to regulate temperature and humidity in the suite. The rooms also feature a fire extinguisher system containing Halon gas. Unlike water or CO₂ the gas does not affect the sensitive electronic equipment.

The CAT scanner is comprised of a large, rectangular gantry with a circular hole in the centre and a movable platform on which the patients lie. A technician can raise or lower the platform and move the patient in and out of the gantry.

During the scan of the patient, a technician and radiologist sit at a console which includes three television monitors. A closed circuit television monitor along with an audio system enables the technician to remain in contact with the patient.

Not only does this allow the radiologist to instruct the patient to hold his breath while a scan is taken, it also means the doctor can reassure patients who may suffer from claustrophobia inside the gantry.

A second monitor provides the technician with information on the test, such as the voltage required, the duration of the scan and the thickness of the cross section. For example, a four second scan may require 125,000

the density of a specific point.

It is the machine's ability to distinguish different densities that make it such an invaluable diagnostic tool. For instance, the scanner can distinguish between blood, air, different types of tissue and between normal tissue and tumors.

In the past, doctors have been able to locate stomach tumors by x-raying patients who drank barium, but the CAT scanner now allows them to study what Doctor Swales calls "The silent organs, such as the pancreas and the spleen. This simply wasn't possible before." "The scanner has also allowed us to see the whole brain for the first time."

Previously doctors were able to see the arteries in the brain using x-rays after patients were injected with dye or air, but the CAT scanner produces an image of the entire brain. Doctor Swales pointed out that because the brain is surrounded by the skull, ultra sound could not be used, since the sound waves would not penetrate bone.

Not only can the machine locate tumors in the brain, it is also invaluable in determining the amount and type of damage done to brain tissue resulting from a stroke.

Doctor Swales explained a stroke can result in the blockage of blood vessels in the brain or bleeding. By putting the patient through the scanner, the doctor can determine which type of stroke occurred and treat the patient accordingly. "If there is an occluded vessel, we can inject an anti-coagulant to remove the blockage, but if the patient is bleeding, an anti-coagulant

volts through the x-ray equipment. The image provides a unique cross-sectional view of the patient and can be varied in thickness.

Doctor David Swales, the Chief of Radiology, explained that when doctors want to examine an area of complex anatomy, such as the inner ear, the cross-section, or slice, may only be 1 mm thick, but a section 1 cm thick may be sufficient for other areas of the body. Portions of the cross sections can be isolated on the monitor and expanded or reduced in size.

By using a light pencil on a small screen mounted on the console, the radiologist can measure width and depth of certain areas and

The gantry can also be tilted 25 degrees in either direction to change the angle the x-rays pass through the patient.

Sensors mounted around the circular opening in the gantry pick up the x-rays after they have passed through the patient and relay this information to a computer in an adjoining room. This information is then translated into a video image in the control room and can also be stored on computer software or on x-ray film.

To explain the capacity of the computer, the chief technician Ray Frank said, "The system has 500 million bytes, whereas the average home computer has less than 100,000 bytes."

Haliburton County contributed \$32,000

Technician Faye Andrews guides radiology student Vince Vandenbosch into the gantry of the Catscan.

would only cause more harm."

Tests done with the scanner have revealed the incidence of strokes which cause bleeding rather than coagulation are higher than previously thought. "The advantage with the scanner is that it eliminates guesswork and has also advanced our medical knowledge," Doctor Swales commented.

The scanner produces a

reconstructions of faces.

Because the scanner can show doctors the insides of patients, it has eliminated a lot of guesswork and the necessity to operate. As Doctor Swales pointed out, "There is a trend in medicine today to less invasive procedures because it is far less traumatic for the

patients." He cited examples of patients with cancer who were able to be treated by

Full service expected by April

static image on the television screen, much like a black and white photograph, but by taking a rapid series of scans, a movement can be detected. "The CAT scan is primarily anatomical, but it does have dynamic capability. We can tell the difference between a benign and malignant tumor due to the difference in the rate of the flow of blood." There is also the possibility of producing three dimensional images, but additional computer software is needed.

These images are used to examine hip joints and spines and enable plastic surgeons to plan the

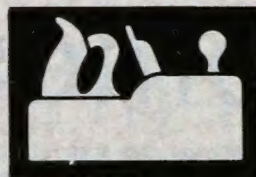

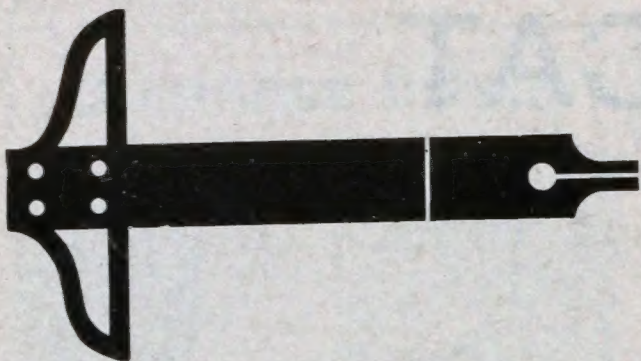

chemotherapy after the scanner showed the nature and extent of the cancer. An operation would have had a profound effect on an already ill person.

The CAT scanner will benefit patients in nine hospitals in the region. The service will be jointly operated by Peterborough Civic Hospital and St. Joseph's Hospital.

Beginning March 10, tests will begin on patients within the two Peterborough hospitals and by April the service will be available to outpatients. At present there are over 100 patients on the waiting list.

Ray Frank, chief technologist at Peterborough Civic Hospital points out a portion of an image of a human brain.

Vasey's and Hall's will face off in Recreation Hockey league final

Vasey's Real Estate and Hall's Insurance will meet in a best of three playoff series to determine the overall champions of the Minden Men's Recreational League beginning March 17. The teams won the right to play in the finals over four other clubs following the final three games of the round robin series played last Monday.

Vasey's and Hall's ended the round robin series tied for first place with Hartwick Construction and the Rockcliffe Foamblowers. Each team had a 3-2 win/loss record.

The two teams were chosen to play in the finals on the basis of the number of goals scored during the five games in the series. Hall's scored 43 goals to lead the standings ahead of Vasey's with 42 markers, the 'Blowers with 39 and Hartwick with 30.

Hartwick continued their strong post season play with a 7-4 win over Home Hardware in the first game played Monday. The game was a good team effort by both clubs with a total of 11 players scoring single goals.

Hartwick held a 1-0 lead at the end of the first frame added three more in the middle period to take a 4-1 lead then matched Home goal for goal in the final period to earn the 7-4 win. Pointgetters for Hartwick were Leigh Bull, a goal and two assists, Barry Ward, Greg Carpenter, Kevin Hamilton and Peter Pearson with a goal and an assist each, Rick Salmon an unassisted marker, Peter Walker a single goal, Joe Mitchell two assists and Ken Casey, a single assist.

Doug Pearson was in nets for Hartwick and was a big factor in his team's victory.

Dean Hewitt led the way for Home with an unassisted goal and two assists. Doug Rae with a goal and an assist and Royce Miller and Larry Sawyer with single tallies rounded out the scoring. Single assists went to Mike Jackson, John Dettman and Brendan Berube. Bill Dennison was between the pipes for Home.

Six goals not enough

In spite of a six goal performance by Brian Shaw, Vasey's went down to a 9-7 defeat at the hands of the 'Blowers, but won the right to play in the finals on their goal production which totalled three more than the 'Blowers.

Vasey's held a 5-4 lead at the end of two periods but the 'Blowers rebounded and counted five goals in the final frame to clinch the narrow 9-7 win.

Dave Brown led the way for the 'Blowers with five goals and a pair of assists. Joe Giles with a pair of markers

and two assists, Dave Crego with a goal and a pair of assists and Jim Todd with a goal and an assist rounded out the scoring. Assists went to Colin Wilson and Bart Hilhorst with a pair each and Rick Mansfield with a single.

Goalie Larry Kent picked up his third win of the series for the 'Blowers.

Brian Shaw continued to dominate the scoring race as he notched six of his teams seven goals including two unassisted tallies. Kim Hamilton with an unassisted marker and an assist completed the scoring for Vasey's. Assists went to Dan Reid with three, Dave Rogers with a pair and Louie Reynolds with a single. Ross Lindsay was in nets for Vaseys.

Needed the win

Hall's Insurance players knew they needed a win over The Times and six goals to edge out the 'Blowers for second place as they prepared for the final game of the evening. They won the contest 9-4 and pulled ahead of Vasey's to clinch first place.

The teams were tied at two-all at the end of the first frame. Hall's jumped ahead 6-3 at the end of two then clinched the win with three goals in the third.

John McAdam led Hall's scoring attack with three goals including an unassisted marker. John Barkwell played another strong game with a pair of unassisted goals and two assists.

Unassisted single markers went to John Fedeski and Andy Campbell while Lawrence Lougheed and Dan Ellis rounded out the scoring with single tallies. Ben Manuge picked up a single assist.

Rob Crowe guarded the twine for Hall's.

Sid McKeigan led The Times attack with a pair of unassisted markers. Kim Colliss with an unassisted goal and Barry Shaw with a single marker completed the scoring. Single assists went to Dave Lee and Ted Vasey. Terry Crowe was in nets for The Times.

The first game of the best of three final series between Vasey's and Hall's will take place at Minden Arena on Monday, March 17 beginning at 7 p.m. There is no admission charge to the game.

**GO
MONARCHS
GO!!**

The puck rebounds from the billowing twine toward Home Hardware goalie Bill Dennison in a game played Monday night at Minden arena. The unassisted goal by Rick Salmon, was one of seven Hartwick Construction markers during the Men's Recreational Hockey League playoff game.

Juveniles have backs against the wall

The Godfrey Juveniles have taken a one game lead in the best of five Ontario "DD" semi finals against the Minden Monarchs after winning two games over the weekend.

The teams each gained a single point after a 7-7 tie in the opening game of the series in Godfrey on March 1, then the Monarchs went

ahead by two points with a 3-2 win in Minden the following day.

Godfrey tied the series with a narrow 7-6 win last Saturday then went ahead in the series for the first time

with a 6-3 win over the Monarchs on Sunday at Minden arena. The Monarchs had to play catch up hockey throughout the game in Godfrey on Saturday.

The host club went ahead 1-0 after only 17 seconds of play. Two minutes later, Scot Hamilton scored the first of his three goals to tie the game. Godfrey scored late in the period to take a 2-1 lead but Minden tied the game early in the middle frame.

The teams traded goals until the midway point of

the third period when Godfrey went ahead by two for the first time in the game. The Monarchs cut the lead

to a single goal but were unable to find the equalizer and Godfrey hung on to earn the narrow 7-6 win.

Scot Hamilton continued his strong play picking up a hat trick to lead the Monarch attack. Lennie Johnston with a pair of goals, including one unassisted marker and Bernie Upton with a goal and an assist rounded out the scoring.

Assists went to Barry Boice with a pair, and Boomer Stamp, Jeff Howe and Gord Wood with singles.

Godfrey was assessed ten minor penalties while the Monarchs were handed only five minors.

Intense action

The game played on Sunday in front of a large crowd at Minden arena was a much more intense match-up than the game the previous day.

The Monarchs came out hitting and had an edge in play throughout the first period.

Two minutes after the opening faceoff, Bernie Upton sent a cheer through the building as he scored on a pass from defenceman Greg Newell. The Monarchs were very effective in killing off penalties and controlled much of the play in the Godfrey end, but with a minute left in the first period, Godfrey tied the

The Godfrey goaltender and his team mate look on helplessly, as Minden Monarch Bernie Upton leaves his calling card in the centre of the net during first period action in the fourth game of the Ontario 'DD' semi-finals.

game at one all while the teams were playing four men aside.

The visitors went ahead by a goal at the 8:41 mark of the middle frame but the lead was shortlived. At the 6:15 mark, Doug Schell scored from a crowd of players in front of the Godfrey net. Assists went to

Jeff Howe and Greg Newell. The turning point in the

game came late in the second period when Godfrey scored twice in less than four minutes.

They added another marker to take a 5-2 lead midway through the final

period. Barry Boice knocked in a rebound 35 seconds later to narrow the lead to two goals on assists

from Bernie Upton and Scot Hamilton but Godfrey put the game out of reach on a power play goal with 20 seconds remaining.

Referee Ray Kirk handed out 14 minutes in penalties

to each team, mainly for roughing.

The next game in the series will be played in Godfrey on Friday at 7:30 p.m. The Monarchs need a win to force a deciding game in the series. Should Godfrey win or tie the

contest, they will advance to the Ontario finals.

A spectators bus will be departing from Minden arena at 2:30 p.m. on Friday. Fans interested in attending the game to support the Monarchs should contact coach Jerry Campbell at 286-2701 to reserve a seat.

The deciding game is scheduled for 8:30 p.m. at Minden arena on Saturday, March 15, if required.

Challenge

As noted in last week's report of Juvenile action, the team is planning a post-season trip to New Hampshire to take part in an invitational tournament. In an effort to raise money to go on the trip, members will be taking part in the Rotary Skate-A-Thon slated for March 26. Members of the team will be soliciting pledges from the public to

help back their fund raising efforts.

To add a little spice to the team's effort, manager Bob Wells has been challenged by grandfather arena concession operator, Garth Gammon, to see who can raise the most money for the team's trip. Wells, a former

hockey player, has seen a lot of ice lately, most of it under his unbladed feet as he walked across the rink to the player's box. Gammon, on the other hand, expects to leave two long orange streaks across the ice when he first steps on to the ice. It's been a long time since his skates have emerged from the closet.

Both individuals are currently out stalking with their pledge sheets. Through the public's support of these two, or any other member of the Monarchs, the team will ensure its trip to the tournament.

Youths charged in cottage break-ins

Charges of break, enter and theft and possession of stolen property have been laid against three youths from the Oshawa and Whitby area following a number of break-ins in Snowdon Township.

According to authorities at the Minden detachment of the Ontario Provincial Police, officers on patrol on March 6, discovered eleven cottages on the Irondale River had been forcibly entered. An abandoned van was found nearby mired in a snowmobile trail. The van had been reported stolen in Oshawa a few days earlier.

A further search resulted in the apprehension of three youths ages 15, 16 and 17.

According to the police, all of the cottage owners have been contacted and most have identified property found in the van as belonging to them.

The youths were returned to Oshawa to face charges relating to the theft of the van and will also appear in Young Offender's Court in Lindsay to face charges resulting from the cottage break-ins.

Constables Mike Maher

Dave MacMartin and Ken Wesley are the investigating officers.

Greasy roads

Slippery road conditions contributed to a pair of accidents over the weekend that resulted in minor injuries to the passengers of the vehicles involved.

According to the OPP, 26 year old Blair Costello of Etobicoke was northbound on Kennis Lake Road early Friday afternoon when his car slid into a southbound truck driven by Donald Graham, aged 30, of Glamorgan Township. The passenger of the Costello vehicle, Leonard Costello, age 62, of Toronto, received minor injuries.

The accident resulted in \$4000 damage to the car and \$50 damage to the pick-up. No charges were laid in the incident.

A similar accident occurred on Kennaway Bay Road in Dysart Township the following day.

Two vehicles were approaching each other on a curve when the rear of the south bound car slid into the

left side of a northbound car.

The southbound car, driven by William Cornwall, 52, of Toronto, sustained an estimated \$1000 in damages. The second vehicle driven by Laura Davis, 24, of Mapleleaf, Ontario, received \$1400 damage. A

passenger in the second vehicle, Dwayne Baumhour, aged 22 of Monmouth Township, suffered minor injuries.

An accident on Sunday afternoon in the village of Haliburton caused over \$9000 in damage and resulted in a charge of driving without a licence.

According to the OPP, a 1981 Toyota driven by Matthew Hopcraft, 32, of Roslind, entered the intersection at Pine Avenue and Sunnyside Street and struck a 1978 Chevrolet driven by Sean Whitfield, aged 17 of Dysart Township. The accident resulted in damages of \$8,000 to the Toyota and \$1200 to the Chevrolet.

A charge of driving without a licence was laid against Hopcraft.

A realistic tough budget

- by Bill Scott, MP -

The Budget presented by Finance Minister Michael Wilson on February 26 is realistic and tough. It will help us put the problems of the past behind us, yet still look after those who need help the most. We were elected because people believed a new government could solve the problems facing Canada. Our mandate was clear and we have made the tough choices and lived up to that mandate.

For our part, the government has been overhauling and streamlining the operations of

government. We have moved decisively to bring runaway spending under control. Our actions this past year alone have resulted in gross savings of \$5.8 billion. This is about \$560 for every Canadian. As a result, the deficit this year will come in right on target. This is the first time in years any government has been able to say that. Total program spending will be held below last year's spending - the first absolute decline in over 20 years.

These actions halted our spiraling debt. Now we must turn to our more important objective, reducing our annual deficits and achieving fiscal stability by the year 1990. To do that, we are continuing the most significant and far reaching spending control program ever undertaken in Canada. As a result of these actions, our spending will grow by less than inflation over the next five years. By the end of the decade, government spending on programs will

fall to the same share of the economy as it was in the 1960's. By controlling the deficit we are controlling the single greatest enemy of our social safety net.

The budget eliminates unproductive tax expenditures and reforms the corporate income tax system. But spending cuts and tax reform alone cannot bring about fiscal stability by the end of the decade. To accomplish that goal, we must start paying the full cost of present government programs and a share of the interest burden built up over the past years - this has not been done for many years. For this reason, the budget does not propose tax increases. We can pay a little more now and if we do not do this now, we will pay a lot more later.

The spending cuts which are 70% of our debt control program will actually reduce our deficits and regain control of our compounding debt. In many cases, we are going to spend less. In every case, we must spend smarter. But in some cases, we will spend more to help those in need today to build a better foundation for their future.

The plight of low income Canadians is a major concern. Last year, we increased the child tax credit to provide more timely assistance to low income families. We are introducing a refundable sales tax credit to help low income Canadians, many of whom are elderly. We are setting up a special program to help social assistance recipients find employment and we are increasing tax assistance to the disabled. We are adopting a new farm policy

financial assistance policy to help farmers caught in the rising cost-price squeeze.

This budget demonstrates our resolve to restore fiscal responsibility to the Government of Canada. We are solving the problems of the past to create jobs today and for the future. Cutting the deficit is not an end in itself, it is the means to an end. It is the means to achieve lower interest rates, more economic growth and more jobs.

Liberals study pension reform

Discussions on pension reform have begun in earnest with a recent announcement by treasurer Robert Nixon. The new measures are designed to provide more portable pensions, better benefits for women and a fairer private pension system in the province and are all a part of the proposed legislation, to be introduced later in the session.

One of the key features includes minimum employer contributions. This requires employers to pay at least half of a pension member's accrued benefit in the event of dismissal, retirement or death. Another feature provides equal benefits and

contributions for pension plan members regardless of sex.

Furthermore, part-time employees will be eligible to join their employer's pension plan after two years of service.

Ontario played a key role in negotiating new financing for the Canada Pension Plan with the federal government. The new CPP financing arrangements ensures that Canadians are aware of the true cost of promised CPP benefits. As well, it allows for a smooth and predictable transition to higher contribution rates, and ensures that the amount of excess funds available for government borrowing are minimized.

Minden's top skaters

Senior members of the Minden Figure Skating Club recently participated in a Interclub competition in Haliburton. First place winners in their respective categories include the trio on the left, Cori Barkwell, Dianne Garbutt and Lisa Carr. They went on to represent this area in a competition Sunday in Kingston. Other members of the club who will be carrying the Minden colours to a competition in North Bay on the right, are Abby Burk, Tammy Pritchard and Sara-Lee Henderson with the baseball mitt.

Dogs creating problems for deer again

With the arrival of spring not too far off, the problem of dogs harassing deer in the county has again come to the fore. In response, the Minden District Office of the Ministry of Natural Resources has issued a plea to dog owners to keep their pets under control or face the possibility of legal action and having the dog destroyed.

Conditions at the later stages of the winter usually result in a crust being formed on the snow which restricts the deer movements but supports and allows dogs to travel at will.

Domestic dogs which often travel in groups take this opportunity to roam and participate in the thrill of a deer chase which often results in the death of the deer through injury or exhaustion.

Deer are in their best physical condition before they enter winter as a result of unlimited food supplies. During the winter months the food resource is reduced resulting in a gradual decline

in the animals condition.

At this time of the winter the deer is the most vulnerable to harassment. As well as receiving leg injuries from crusting snow conditions, a prolonged chase results in high energy consumption for deer already under the stress of winter. This can result in the death of the deer even without being attacked. The females are extremely sensitive to unnecessary exertion and the added stress of pursuit can lead to

aborted fawns.

In the past few weeks the Minden District has responded to eight reports of dogs chasing deer resulting in two known deer deaths with court action taken on two occasions where the dogs owners could be located.

During this critical period for deer the Ministry of Natural Resources asks the cooperation of all dog owners in protecting the deer herds by not allowing their pets to roam

unattended. The Game and Fish Act allows a Conservation Officer to destroy any dog found running deer and provides a penalty to a maximum of five thousand dollars for the owner of a dog found running at large during the closed season for deer or chasing deer.

The public can also assist by reporting any dogs observed chasing deer by contacting the Minden District office of the Ministry of Natural Resources at 705-286-1521.

ATTENTION

CABLE TELEVISION SUBSCRIBERS

Dear Customer:

Last Fall the C.R.T.C. (Canadian Radio & Television Commission) granted Haliburton CATV permission to add four American TV networks I.E. ABC, NBC, CBS, PBS, plus CHCH Channel 11 from Hamilton, Ontario to its cable systems in Minden and Haliburton.

These extra five channels would be added on a discretionary basis, and only those desiring the service will receive it. The cable company will receive the service via satellite from Canadian Satellite Communications and distribute the signals on channels 2-3-4-5-6. The existing "off the air" service will continue in its present form and will appear on channels 7-8-9-10-11-12-13. As a result, customers will not require a convertor or any other equipment in their homes.

The cost of this additional service will be \$10.00 per month plus Federal and Provincial Taxes. Because we must commit the company to a substantial capital cost, plus a monthly rental to Canadian Satellite Communications before this service can begin, we must have a minimum number of cable customers committed to the new service. We ask you to complete the following form and return it to us as soon as possible. If there are questions, kindly call 754-2356 or 286-2846 between 6:00 and 8:00 p.m.

Gooderham school candidate for closure

Due to a decline in enrolment Gooderham

Public School has been nominated as a candidate for closure. The decision was made at a Haliburton County Board of Education meeting on February 25.

In commenting on the board decision at the regular meeting of Stanhope council on March 5, Director of Education Stuart Baker said the decision does not mean the school will definitely be closed, but will be the subject of a study by the board and members of the community.

The Gooderham school becomes the second educational institution in the county to be nominated for closure.

Dorset Public school has also been considered for closure because of the low enrolment and low teacher-

pupil ratio. Thirteen and a half students are expected to enrol next year (Kindergarten students are assessed a half value for grant purposes.)

Consideration for the safety of the students requires that two teachers be hired and the board feels the expense of the salaries and continuing operating costs at the Dorset school are not

justified, Baker said. Noting the community has objected to the possible closure, because they do not want their children transported by bus to Dwight, Baker said, "I can sympathize with the families in Dorset. If I was a father with young children, I would want to educate them within a few miles, not ten miles away, but there are tradeoffs."

Concerns have been

expressed that the closure of the school will discourage families from moving into the area, but Baker pointed out, "We have to have the students first. We can't keep the school open because of the future possibility of more students."

While the financial savings may not seem significant over a period of one year, when compared to the overall budget, the board must consider the long term savings, Baker said. The decline in enrolment throughout the county has placed a strain on local taxpayers because of the decrease in provincial assistance.

The board's business director Stan Baker, explained that along with a decline in enrolment, the county is faced with an increase in assessment which further reduces provincial

grants. Last year the raw assessment went up 1% he said, but the equalized assessment determined by the province, increased by 4%.

Stan Baker said that while municipalities can benefit from increased taxes because of increases in assessment, local ratepayers are forced to pay a higher portion of education costs.

He presented figures showing the recognised ordinary expenditure grant rates have declined from 38.2% in 1980 to 29% in 1984 for elementary schools and from 29.8% to 25.6% for secondary schools in Haliburton County. At the same time, there has been little change in the grant rates to the neighbouring counties of Victoria and Hastings.

Compounding the problems created by declining

enrolments and increasing assessment, the province institutes programs and policy changes that increase education costs but does not recompense the local boards for increased costs, the director said. He pointed out that while the ministry of education made a university education mandatory for elementary school teachers, the provincial grants did not keep up with the dramatic rise in salaries.

Problems are also created by the provinces decision to implement costly special education programs and increased instruction in French. "We pick up extra grants for these programs but they don't pay for all the increased costs we face," Baker said.

The director did have some good news for members of council. The debentures on Archie Stouffer School in Minden and J. Douglas Hodgson school in Haliburton will be paid off in 1991 and the Haliburton Highlands Secondary School became debt free in 1985 after the cost of additions was paid. Because of the importance of enrolment in the county schools, Baker saw some hope for the future in that enrolment is expected to increase in the early 1990's.

Representatives of the Haliburton County Board of Education are visiting municipal councils in the county to explain the financing problems being dealt with by the local education system.

Preventing disease in cattle

- Ag report -

What can you do to prevent pneumonia and scours in calves? Which method of castration is most cost effective? What do you know about "BVD"?

Find the answer to these and other questions regarding disease prevention in beef cattle at the spring meeting of the Victoria County Cattle-men's Association being held in the conference room at the Lindsay Agricultural Office on Monday, March 17, starting at 8:00 p.m.

This information meeting for beef producers will feature video tapes discussing disease in cattle and methods of processing and handling cattle. The video tapes will be followed by a panel discussion and question period with local veterinarians. This will be an excellent opportunity for cattlemen to get up to date information on disease prevention.

Also during the meeting beef stabilization programs will be reviewed. The retro-

active stabilization payment for slaughter cattle for 1985 will be discussed; application forms will be available for anyone needing them and assistance will be given in completing these application forms.

Deadline for Red Meat Plan

Under the Red Meat Plan for beef and sheep producers, participants are eligible for benefits annually for several sections. To receive these benefits, it is essential that participating producers file their application forms for these benefits before March 31, which is the end of the fiscal year for the Provincial Government.

Participants in the cow-calf development program should file their documents related to their Herd Health programs and the pre-conditioned calf programs by the deadline date. Participants in the stocker-slaughter development program should file their herd health documents.

Participants in the Sheep Development Program should file their flock health documents as well as applications related to their participation in estrus control, pregnancy examination and lamb grading.

Participants in all programs are reminded that their vouchers for free forage testing are only valid until March 31.

Farmers who qualify for any of the above mentioned benefits should file the necessary documents at their county Agricultural Office right away and not later than March 31.

Enterprise analysis

Did you ever drive a car without a speedometer? Or go hunting on a cloudy day without a compass? Every business - and especially farm businesses - should take measurements and analyze "how well" they are - it is important to know how fast your business is moving, and in what direction. The Enterprise Analysis pro-

gram is a major help in taking the pulse of your farm business.

This year will be the 40th year in which farmers across Ontario have had the opportunity to participate in the enterprise analysis project with the Ontario Ministry of Agriculture and Food. Any farmer who is interested is welcome to participate. Beef and sheep producers who are enrolled in the Red Meat Plan can gain a bonus for participating in the Enterprise Analysis.

If you would like more information on this project, contact your local county Agricultural Office. You will be given a pink workbook, which you can complete and then return to the Agricultural Office. Participating farmers in Victoria County will be asked to make an appointment with Carm Hamilton or Bill Baxter for a brief discussion when the workbook is submitted. March is the ideal month for getting this project looked after.

Anglers comments sought

Public meetings will be held across the Algonquin Administrative Region of the Ministry of Natural Resources to encourage the public to comment on the proposed angling licence for Ontario residents.

In February of this year, Natural Resources Minister Vincent Kerrio, announced that a resident angling licence is being considered for the 1987 season.

Mr. Kerrio has suggested a \$10 licence fee for Ontario residents between 18 and 64 and a \$5 fee for residents 65 years of age and over.

The additional revenue will help pay for the protection, maintenance and improvement of the fishery.

Ontario currently spends \$30 million annually on fisheries programs. Fees from the proposed licence could contribute an estimated \$10 million of additional funding for fisheries programs including habitat improvements, additional fish stocking, and enforcement of regulations.

The following public meetings have been scheduled:

Parry Sound - March 14, Bobby Orr Community

Centre.

Pembroke - March 19, Pembroke Outdoor Sportsmen's Clubhouse.

Minden - March 24, Minden Municipal Office, Council Chambers.

Bancroft - March 25, MNR Bancroft District Office.

Huntsville - April 2, Huntsville Town Hall Auditorium.

All meetings will commence at 7:00 p.m.

Anglers have been asking for a resident licence for some time now to protect and enhance Ontario's fisheries resource.

HCSA second largest club in the world of snowmobilers

With the increase in membership over the past winter, the Haliburton County Snowmobile Association has grown to become the second largest snowmobile club in the world, club members were told at the annual meeting on March 1.

Norm Gemmell, the membership chairman, told the meeting 1317 snowmobilers purchased club memberships this past winter, an increase of 231 over the previous season. Sales of the yearly trail passes meant an income of \$37,448 to the club. An additional \$4000 was contributed through 7 day passes and meant nearly 1700 snowmobilers legally made use of the trails.

Mark Lester, the public relations chairman, predicted a recent tour by HCSA members and C.J. Ramstad, the senior editor of Snowmobile magazine will probably help boost winter tourism in the county and result in increased use of the HCSA trail system.

Ramstad, who informed club members the HCSA is second only to the St. Agathe, Quebec club with 1500 members, was very impressed with the local trail network and indicated he would be writing a major feature article for publication at the beginning of the 1986-87 season.

Lester said past articles written by the senior editor have been very influential in promoting winter tourism in other areas of Canada and the United States.

Vice-president Tom Prentice told the meeting the use of the new grooming equipment purchased by four area municipalities in 1985 and the heavy snowfall this winter, has resulted in a big improvement in the trails and has contributed to the increase in membership. The club has been asked to expand their trail maintenance to include the five points trail system south of Kinmount, Haliburton Lake and Sherbourne

Township he said, but he cautioned any expansion will require the purchase of additional trail grooming equipment.

The club has just begun a fund raising drive to replace the aging Bombi trail groomers with new equipment.

A further increase in riders may result from an agreement being considered by the Ontario Federation of Snowmobile Clubs (OFSC) and the Ontario Trail Builders Alliance (OTBA). For the past several years, Prentice has been serving on a committee attempting to set up reciprocal agreements among all clubs in the province. An agreement has been approved in principle by the OFSC and OTBA committees and will be introduced at the upcoming conventions of the groups. Under the formula drawn up by the committees, snowmobilers who purchase individual club memberships along with dual trail passes, will be able to legally travel on any trail network in the province.

The funds raised through the sale of the dual passes will be divided among the clubs with a larger share going to the associations with the most extensive trail maintenance programs, such as the HCSA.

It has been estimated 10% of all snowmobilers in the province travel outside their own area.

Successful program

During a report on the club's racing program, Mark Lester said the Snocross races held during the Minden Winter Carnival were the most successful ever staged by the association in terms of the number of entries, the calibre of the racing and the large spectator turnout. However, while the Snocross races and ATV races held during the summer have grown in popularity, the future of the races is uncertain due to complaints by residents who live near the ATV track. Lester commented residents of the area have expressed concerns to Anson, Hindon and Minden council over noise and dust during the summer races.

Club member Peter Overington was commended by members of the executive for the sign program he initiated this year. Overington constructed 170 destination signs and with the help of other members erected them on the trails. Another 50 signs will be put in place next year. Overington announced plans to standardize the system of coloured arrows on the trail so that each trail would be identified by a different colour. He

estimated this would entail replacing 15,000 trail markers on the 700 km of trails in the county.

The meeting concluded with the election of officers.

Ross Lindsay remains as club president. The first vice president is Leroy Lichty. Tom Prentice will serve as the second vice president

and Carol Lindsay will continue as the secretary-treasurer.

Other members of the board of directors include Bob Clifford, Mark Lester, Bob Valentine, Steve Berry, Gord Darby, Peter Overington, Guard Campbell, Norm Gemmell and Barry Stewart.

Directors at large are Gord Hamilton, Paul Prentice, Steve Brand, John Matier, Bill Seedhouse, Lyall Gordon, Mike Munro and Chris Seedhouse.

Kinsmen mark 30th anniversary

Members of the Minden Kinsmen and K-40 Clubs gathered at the Wagon Wheel Restaurant on Wednesday to celebrate 30 years of service to the community.

Taking part in the celebration were 15 past presidents of the club including the Charter President William 'Deac' Jackson, who founded the local organization on May 10, 1956.

His immediate successors, Lyle McKnight and Doug Pritchard also attended the Charter Night.

Since the club members face a busy schedule as they prepare for the District 8 Kinsmen-Kinette convention to be held June 5-8 in Haliburton, they decided to celebrate the anniversary slightly ahead of time.

Surrounded by fellow Kin, Charter President Deac Jackson and his successor Lyle McKnight cut the anniversary cake at the recent Kinsmen Club Charter night. Taking part in the ceremony were, from the left, front row, Brian Hamilton, Lyle McKnight, William 'Deac' Jackson, Doug Pritchard, Don Nye, and Larry Amyotte

who served two terms as president of the Port Hope Kinsmen Club. Second row: Murray King, Larry McKnight, Lewis Stevens and Bill Payne. Back row: Doug Ripley, Don Cubbidge, Eldon Deacon, Don Booth, Tom Prentice and Warren Payne.

Red Cross Society will hear about Ethiopian crisis

Members of the Minden Red Cross Society will have an opportunity to get a first-hand report on conditions in Ethiopia this Monday night at the group's annual meeting. Guest speaker for the evening will be Sharon Jackson, a public relations worker with the Canadian Red Cross.

Jackson has worked in a number of posts for the Red Cross, including the editing of the organization's magazine, The Bulletin, and writing numerous brochures. In November 1984, she was sent to Ethiopia to assist the relief agencies in dealing with the influx of refugees into the area. She also wrote a number of articles on the organization's efforts in the country. She returned to her duties in Ontario in March of last year.

Her visit to the annual meeting of the local Society should give members and friends an opportunity to get an accurate assessment of the situation in the drought

stricken country and how aid from other parts of the world is being put to use.

The meeting will be held March 17 at St. Paul's parish hall. Dinner is scheduled to begin at 7 p.m. Tickets for the annual meeting can be obtained from Minden I.D. A drug store, Brian Adamson's office and Minden Hospital.

Grants approved

The federal government has announced the approval of two more job creation grants for Haliburton County. The MP for Victoria-Haliburton, Bill Scott, announced the funding last week.

The Township of Glamorgan will be receiving \$9286.00 from the department of Employment and Immigration. A grant of \$36,083 has also been made to the Haliburton Highlands Nordic Trail Association.

senior league

Sunday evening Mr. Burgess conducted services in the chapel, taking for his message Psalm 123.

Saturday evening two movies were shown, "Sea Sanctuary" and "Beyond the Grampians".

Tuesday morning the Rev. Ranson of Kinmount Anglican church held a communion service in the chapel. Tuesday afternoon Quiz game was held in the craft room and was enjoyed very much by those who were present. Tuesday evening Daryl Crowe came to play and sing for us, as usual it was much appreciated and enjoyed.

Mrs. Winnifred Barnum's grandson from Germany was flown home on a six day leave to visit his grandmother and other relatives, part of the time was spent in Peterborough.

Thursday's tea party was brought by the ladies of Our Lady of Fatima Church, two lovely singers were with them, Toos Reid and Rose Barry, we sure enjoyed it all (and the eats - WOW!!) After the tea party was the routine monthly meeting of the Residents' Council,

nothing new on the agenda except the Auxiliary is planning to have a sale of tickets on a piece of ceramics that Angus Coulter is now working on.

We extend happy birthday greetings to Angus Coulter who will be 88 on March 10.

Cora Upton and son Jim came on Saturday to visit and have lunch with her sister Pearl Lyle.

The world day of prayer was held at Hyland Crest on March 7 with a very good attendance consisting of members from the United, Anglican and Catholic churches. The subject (Choose Life in its Fullness) was ably narrated by Helen Henderson. The singers, Toos Reid and Rose Barry were once more appreciated very much.

Carrie Jones is back after being in Lindsay hospital for a couple of days. We are glad to see Mark Schell back after being away for a week.

A memorial service was held in Carnarvon United Church on March 8 for Mr. Gordon Allcorn.

Sorry, Edna is not back yet.

Robertson honoured as life member

A Zone Convention was held in Beaverton on Sunday March 2 at 1:30 p.m. with over 100 people in attendance. The opening ceremony was conducted by Zone Commander Melvin Robertson of Haliburton Branch with Deputy Zone Commander Stan Moore giving the invocation in the absence of Zone padre Clifford Waite.

Each of the twelve Legions in our area had representation at this meeting and gave interesting reports on their activities for the past year. It was noted from their reports that each Legion had made sizable cash donations to the many charities in their area plus giving support to youth education and youth sports.

The chairman, Ken Bell, of Omamee, called on Deputy Zone Commander Stan Moore to give his report. He spoke of the many events he had attended around the zone and thanked the Legions for their invitations.

Zone Commander Mel Robertson gave a comprehensive report on the work of the Zone, complimented the Legions on their community work, their support of the many legion programs and the way they conducted their meetings.

The Ladies Auxiliary Zone Commander Gwen Cox spoke of the active support the auxiliaries give their branches with their donations to legion building funds, community projects plus their tireless effort helping the legion in their money raising efforts.

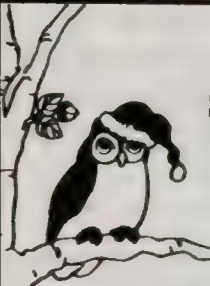

A presentation of a Life Membership (the second highest award in the Legion) was made to the Zone Commander, Melvin Robertson for his dedication to the aims and objects of the Royal Canadian Legion, plus his

involvement in many community projects.

Guest officers in attendance were: District F Commander Paul Hycha, Oshawa; Deputy District F. Commander Ken Jeffries, Port Hope; Zone Commanders John Ryan, Cobourg, Stan Royle, Frankford, Ewart Wanamaker, Bancroft, District Public Speaking Chairman Una Golding, Peterborough, District Track & Field Chairman Frank Gibbons Wellington District Leadership & Training Chairman, Alf Brisbois, Oshawa and the President of Branch 452, Peterborough Vi Hill.

The closing ceremony was read by Deputy Zone Commander Stan Moore and then a social hour and a dinner served by the Ladies Auxiliary, Beaverton ended a very interesting day for the Legion members in Zone F4.

THE PLANNING ACT 1983

NOTICE OF THE PASSING OF A ZONING BY-LAW BY THE CORPORATION OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN

TAKE NOTICE that the Council of the Corporation of the Townships of Anson, Hindon and Minden passed By-Law No. 86-26 on the 25th day of February, 1986 pursuant to Section 34 of the Planning Act, 1983.

AND TAKE FURTHER NOTICE that any person or agency may appeal to the Ontario Municipal Board in respect of the By-Law by filing with the Clerk of the Corporation of the Townships of Anson, Hindon and Minden not later than **Tuesday, April 1st, 1986**, a notice of appeal setting out the objection to the By-Law and the reasons in support of the objection.

AN EXPLANATION of the purpose and effect of the By-Law is attached hereto. By-Law No. 86-26 is comprehensive zoning by-law which applies to all lands within the Townships of Anson, Hindon and Minden. The Complete By-law is available for inspection in the Municipal Offices during regular office hours. Anyone wishing to obtain a copy of this by-law may do so **free of charge** by writing to, telephoning or attending at the Municipal Offices during regular office hours.

DATED at the Township of Minden this 26th day of February, 1986.
Mrs. B.A. Millar, A.M.C.T. (A),
Clerk-Treasurer,
P.O. Box 98, Milne Street,
MINDEN, Ontario K0M 2K0
(705) 286-1260.

EXPLANATORY NOTE TO BY-LAW NO. 86-26

By-law No. 86-26 is a comprehensive zoning by-law enacted pursuant to the provisions of Section 34 of the Planning Act, S.O. 1983, C. 1, as amended. This by-law serves to implement the land use policies as expressed in the Official Plan by regulating the use of lands and the character, location and use of buildings and structures within the municipality. To this end, By-Law No. 86-26 establishes various provisions relating to such matters as minimum lot area and frontage requirements, minimum yard and setback requirements, lot coverage restrictions, minimum dwelling unit area requirements as well as other regulatory provisions deemed necessary and reasonable to regulate the use of lands for the permitted residential and non-residential uses in accordance with current standards and regulations. By-law No. 86-26 serves to limit, prohibit and/or regulate the use of lands throughout the entire municipality in a manner which Council considers will provide for the future orderly development of this municipality. Upon approval, By-law No. 86-26 will repeal previous Restricted Area By-law No. 14-67, as amended.

around the county town

by Jeanne Sears. Call 286-1538

Margaret Smith and Kathy Howe returned last week and reported having a wonderful holiday in the Bahamas.

Winners at the euchre games last Thursday afternoon at St. Paul's Parish Hall, were lone hands Charlotte O'Neill and Joyce Hewitt, Vera Ward (on a cut), Marg McAfee and Jack Weekes.

The Red Cross annual dinner is to be held March 17 at St. Paul's Church Hall. Social hour is 6 p.m. with dinner at 7. The guest speaker is Sharon Jackson who spent 6 months in Ethiopia. Tickets are available at the Drug Store, Brian Adamson's office or at Minden Hospital.

Congratulations to Mr. and Mrs. Percy Brown who celebrated their 50th wedding anniversary last week.

Archie Stouffer Home and School Association is sponsoring Public Skating at Minden arena on Friday, March 14 from 2-4 p.m.

Hint of the week, given to me by J.S. To remove grease from the top of your chicken stock, place some ice cubes in a clean J cloth and run over the top, remove ice cubes, wash out the cloth and I was told this removes nearly all the grease.

Sincere sympathy to the

family and friends of the late Dorothy Moore who passed away suddenly last week. Dorothy was perhaps best known when she worked with the Rastalls at the Dominion Hotel where she was an excellent cook.

Al and Theresa Clements and Trevor of Scarborough visited with her parents, Pearl and Arnold Cowen recently and Trevor will be staying with his grandparents for a while.

Dong Soo-Suh spent several weeks visiting his mother Woo Soon-Kang in Seoul, South Korea. Perhaps you didn't know that Dong and his wife run the Sunny Variety store where you can get your lottery tickets.

Happy birthday to Angus Coulter March 10 and to Victor MacBrien on March 19.

The Thrift Shop, sponsored by the Anglican Church women will be open this Friday and Saturday afternoons from 1:30 to 4:00 p.m. beside the health food store.

Marie Austen, son David his wife Shirley and children Tammy and Darren are just back after an enjoyable week in Jamaica.

Guests over the weekend with Cliff and Jean Lacey

were Joanne and Jim Oatman and Joshua and Crystal of Shelburne and Sherry Cruikshank, Joshua and Crystal are spending the March break with grandparents Cliff and Jean.

St. Patrick's day dances going on this weekend at the Centre in Wilberforce and also at Gooderham Centre. Best wishes on St. Pat's Day to all Irish people.

We notice there will be a flea market at the Legion in Haliburton on Saturday, March 15 from 9 a.m. to 3 p.m. I've been several times and there are many good buys to be had there.

Winners at Club 35 card party Monday evening were: most lone hands Jeanne Penick, high lady Pearl Foster and high man Jim Foster. The door prize went to Jack Gregory and other winners included Bertha Parker, Jack Gregory and Jeanne Penick.

I'm glad life is given us bit by bit,
In minutes and days and years;
For if we were faced with the whole of it
How filled it would be with fears;
With all of its laughter and all of its pain,
Its sorrow and joy and care -
Why, even its beauty all at one time
Would be more than we could bear.

But God drops a bit of happiness here,
And lowers a shadow there
And each of us has his portion of both
The bitter and the fair.
And whether the way be rough or fine,
It's a comforting thing to know
We've only one step to take at a time,
Just one little day to go.

The Minden Women's Institute meeting will be held March 19 at the Library/Cultural Centre at 2 p.m. with Mrs. D. Cox giving her paper. All ladies are welcome.

There will be skating with Minden Play School at the arena March 18 from 1-2 p.m.

Several falls of snow on Saturday and Sunday so more shovelling. Milder today, Monday but rain and thunderstorms are predicted.

Heard this morning that it is time to plant your green pepper seed as it takes longer than others to grow.

Mrs. Ern Windover is celebrating her birthday this weekend. See the ad elsewhere in this paper.

Weekend guests with Milt and Jeanne Sears were Logan Moth and Sandra Sears of Toronto.

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off in the list.

It's as easy as that. Have fun!

Q: What would you have if you poured chocolate over a sheep?

A: A chocolate baa.

Q: When are boys like bears?

A: When they are bare-footed.

Q: What is the best thing to do for that run down feeling?

A: Get the licence number of the car.

Branch 129 news

by Gerald Irish

Saturday evening's wine and cheese party was well attended. This gave many people a chance to meet the various chairmen of the Bluegrass committees. The volunteer sign-up sheets were very well used but more help will be needed. Please

assist us.

The general meeting on Thursday night was also well-attended and much business was accomplished in a short time. Officers' reports were brief and well prepared. This helps make the meetings go smoothly.

If you are interested in playing in a Zone Shuffleboard Tournament in Bobcaygeon on April 12, contact Jack McDonagh. He will be holding practice sessions on Friday nights at the club room.

Eyes on the gold

by Bruce Armstrong

34 people of County Haliburton could meet their Waterloo this summer!

There would be ten 5 pin bowlers of whom at least four would be women, eight golfers, of whom four would

be women and four cribbage four euchre, four dart and four shuffleboard players, either mixed teams or all men or all women.

Last year there were 335 registrations at the Drop-In Centre for the nine Ontario Senior Games held and 85 gold, silver and bronze lapel pins awarded to the winners. In 1986, while our community games will warrant the same awards, only 34 top players will be eligible to go to Actifest '86 at Waterloo University in August.

There are, however, a few "ifs". If Muskoka enters this year, and if they choose some or all of the same games, then District playoffs would decide which teams go to Kitchener.

Financial assistance is being provided by the Actifest Committee to the tune of 70%, but if we obtained a sponsor, the need for each winner to pay to play would be alleviated.

A return trip by bus or car, 2 nights and 3 days accommodations, friendly competition, a banquet with 1000 other contestants and Honorary Patrons, the Right Honourable Roland Michener and the Honourable Dr. Pauline McGibbon, as well the opportunity to be a private ambassador of the Haliburton Highlands Chamber of Commerce - all for an "if" of \$25 to \$30.

Perhaps we should all start planning and practising?

Watch your mail for the March bulletin. It's a little bigger this month because of reports of past and upcoming events.

On Friday we received the good news about the legion sponsored apartments. They have been approved. Watch this article for more news about the apartments.

Thanks to the Ladies Auxiliary of Branch 129 and the many interested citizens who have sponsored cadets. You too may wish to be a sponsor. It is only \$50 per cadet. Come out on Monday nights and see these young men and women in action. They'll make you proud.

Two of our comrades received the singular honour of being invited to the CatScan dedication at the Civic Hospital in Peterborough. Co-chairpersons Mabel Brannigan and Jack Macdonald, headed up the campaign for funds in Haliburton County. We are proud of these comrades.

During the introductions of the Bluegrass chairmen on Saturday night, one very important member was inadvertently overlooked. This chairman is very important to the whole operation and my partner in trying to co-ordinate Legion Bluegrass. Sorry Jim, what would we do without you?

Guild news

by Shirley Hodgson

Mother Nature must be a little mixed up as she sends more snow and it is so cold. This is just great for the children to play in - for the skiers and the snowmobilers. What better time to have this than at the "Spring Break?"

Congratulations to Beth Burton - keep up the good work - you are one talented young lady. I met Beth a year ago at Wig-A-Mog. She attended the "Collage" which was conducted by Marilyn Brooks. Beth showed plenty of talent then and she seemed so enthusiastic.

We hope you will join us at the Gallery in March for a look into the past. "Family Portraits" and Jane Buckle's fabric mache figures of old-time characters, also beautiful glass works are on display now.

Please don't forget the general meeting on Monday, March 17 at 7:30 p.m. This will be hosted by the knitters. Be sure to wear your own knitted garments or bring an article with you. Entertainment will include some good old Irish tunes and an Irish singalong.

Chuck O'Neil will be teaching a basic drawing workshop for craftspeople on Wednesday, March 19 at the Gallery from 7:30 to 9:30 p.m.

The Guild Choir has resumed meeting every Tuesday at 7:30 p.m. at J.D. Hodgson Elementary School.

There will be a workshop by Jane Agnew at SSFC for the Potters March 24 to 27.

The writers' group will be having their first meeting at Ginnie Muenzel's home on Monday March 17 at 10 a.m. Anyone interested call Ginnie at 754-2181.
